** Warning External Email **

Please note my objection to the vastness of this proposed redevelopment. As a resident of nearly 34 years in Edgware we have experienced many changes - some for the good but definitely some for the worse. This proposal is way off logic and balance - Edgware cannot cope with this proposal and we ask you seriously take into consideration the views of Edgware's residents and the coping mechanisms - Edgware cannot cope at the moment!!! Please take our objections into strong consideration

Living in hope
