

Dear Sir/Madam,

I have looked at and read the plans and proposals for Modifications to land in Osidge Lane. There is presently a free car park for customers to shop at the local shops in Hampden Square, and for families to park while they watch their sons/daughters play football in the Brunswick Park fields at the back.

There is a Scout Hall which over the years has been used for many gatherings of adults and children, but is presently being used for a Nursery School, which there is need for in this area. Next to the hall is a Veterans Hall which has also been used for so many things over the years. It is presently a Spanish Church which is full every Sunday for all denominations to attend. The services are full of music, singing and so much love from the young and the elderly.

On the land outside the Scout Hall and next to the car park is a small food/drink establishment which brings the community of all ages together. Many people go there as strangers but leave as friends.

So when I read the report and saw the justification for building residential properties is because the existing space is not being used to its full potential, well you only have to either read the above or visit the site, only to see how much joy and happiness these facilities provide.

Yours faithfully

Miss Susyn Northwood
